

## LOOK LOCAL - 10 MINS

How many wild bird feed balls can you make in 10 minutes?

**Ingredients** (enough to produce two fat balls):

- 300grams of lard
- 75grams of peanuts
- 75grams of sultanas or raisins

**Equipment:**

- Heat source
- Small saucepan/billie
- Mixing spoon
- Plastic cups (one per cake)
- 150mm garden wire per cake

**Method:**

- Melt lard in saucepan.
- **Be extra careful as it will get very hot. Don't allow it to boil.**
- Add peanuts and dried fruit.
- Loop garden wire, both ends and place in plastic cup.
- Pour mixture into cups and centralise wire.
- Allow to set.
- Remove feed ball from cup by placing in warm water.

You can now hang your feed balls out for the birds in your local area.
